

### Flexframe

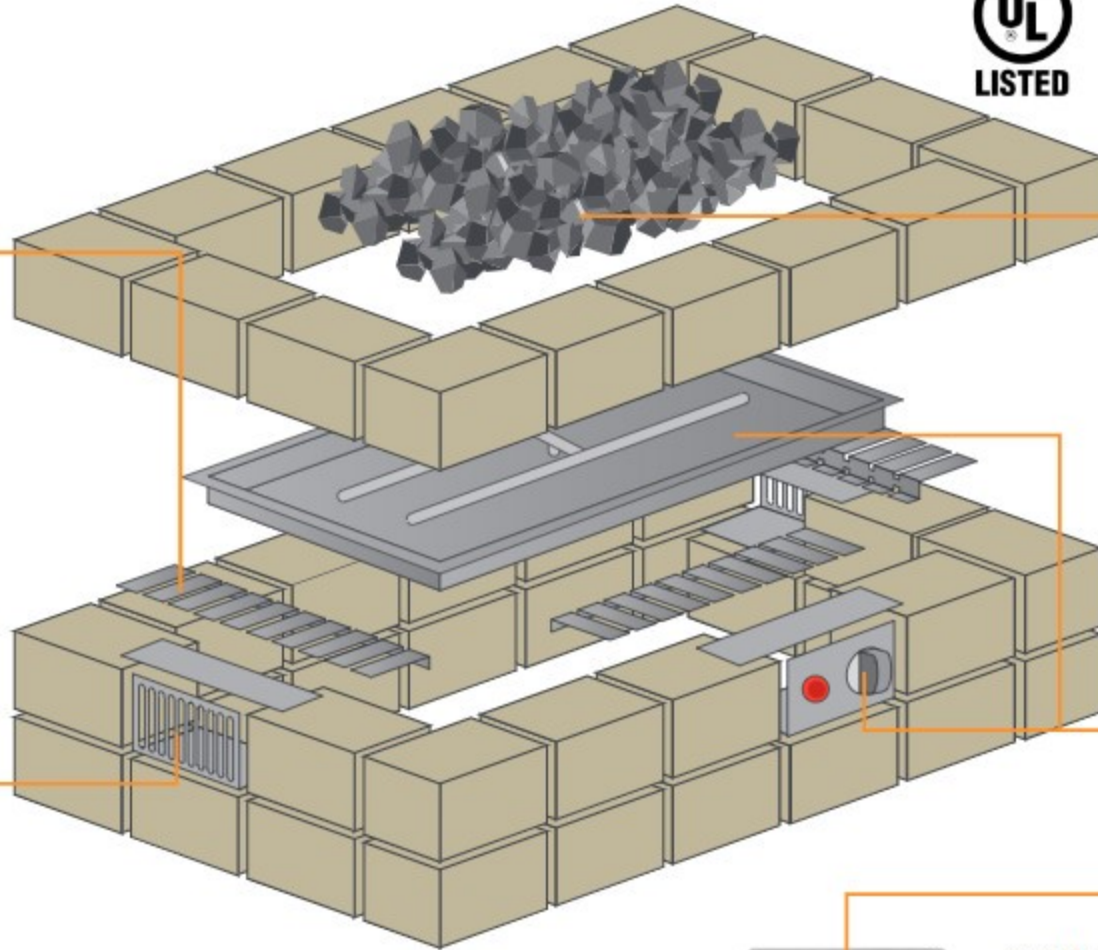

(3) pieces of 304 stainless steel that allows you to fill the gap between the inside opening and the size of the burner. Simplifies installation and any maintenance needed.

### Vents

Paver vents provide required 18 square inches of cross ventilation. Reduces making cuts and includes a lintel for added support. Sold as a pair. All stainless steel construction.

**KIT INCLUDES: Burner System, Control Panel, Flexframe, Vents & Lava Rock**

### Lava Rock

One 50 lb. bag of 1" - 2" diameter black lava rock. Used to cover burner and creates air to gas mix for optimal flame size and appearance.

### Burner System

H Burner - 304 SS pan with lip (30" L x 10" W - inside dimension)

65,000 Btu

TMSI Ignition

Variable flame adjustment using a control knob

Battery operated manual spark ignition button

Safety valve turns gas off in case of flame loss
