Introducing Our
New Universal Control

A luxury home where convenience is at a premium. A scenic resort where a seamless look is desired. An exclusive hot spot with multiple heating zones.

At Infratech, we know that our customers have different needs when it comes to the controls they choose for their properties. This is why we offer a broad range of custom control options that allow you to enjoy your Infratech heaters "your way". From comprehensive Solid State Control Packages to Smart Home Integration Panels, and now our new Universal Control Panel that enables you to choose your own switches. There's an Infratech custom control that can help you unlock the versatility, functionality, convenience and comfort you desire from your Infratech heating system.

The Universal Control is a complete solution that will work with almost any 120V Lighting Control.
