Why ACiQ?

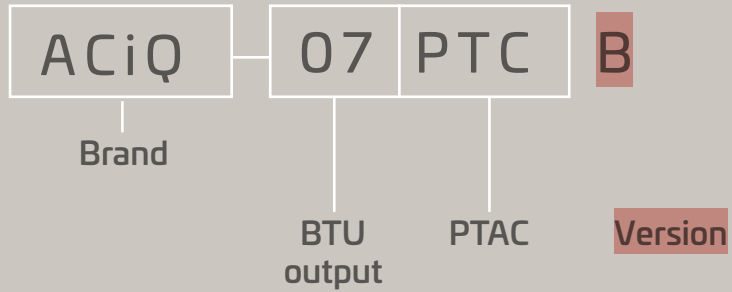

ACiQ started with a simple idea – bring high-quality, high value ductless mini split products into American homes. The response has been fantastic, and we have grown each year, adding exciting new products along the way. Now, ACiQ has a complete catalog of products for every need, all while preserving our mission – to offer high-quality and high value heating and cooling to the public. What's more, the entire lineup features best-in-class warranty protection so you can feel secure about your investment.

How to Read ACiQ Model Numbers

Standard PTAC

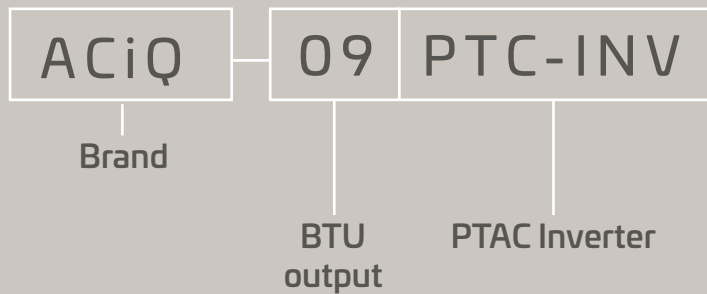

Sample Numbers

Variants of certification: **PTC**-Packaged Terminal Air Conditioner

PTAC Inverter

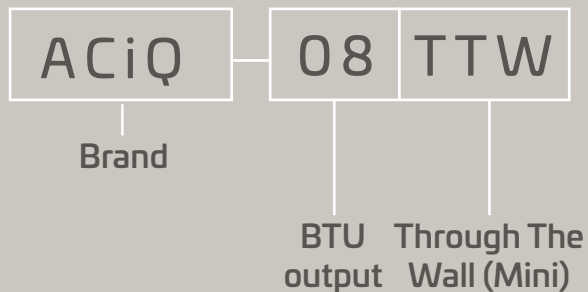

Sample Numbers

Variants of certification: **PTC-INV**-Packaged Terminal Air Conditioner Inverter

PTAC Through the Wall (Mini)

Sample Numbers

Variants of certification: **TTW**-Through The Wall (Mini)

Key Features

Heat Pump Efficiency

Enjoy up to 60% energy savings on heating vs. electric strip heat-only models.

Electric Backup Heating

Keep warm inside no matter the temperature outside.

Automatic Programming Restart

In the event of power loss, this unit automatically restarts with your most recent settings so you can have peace of mind.

Infrared Sensor

The units have an IR sensor for use with 3rd party controllers.

Pre-Installed Air Filters

ACiQ PTAC units come with two washable, pre-installed air filters to help keep the air pure and clean.

LED Temperature Display

The sleek LED temperature display allows for easy-to-read climate control year-round.

Standard PTACs

A dependable and cost-effective choice, ACIQ PTAC Heat Pump Air Conditioners ensure comfort in any weather for you or your guests. These hotel-style units utilize high-efficiency heat pumps to offer warmth in various conditions, supplemented by backup electric resistance heat for the coldest days. Providing powerful on-demand heating and cooling, these units deliver unbeatable value.

System Type		Packaged Terminal Air Conditioner (PTC)			
Product Model Number	ACIQ-07PTC-B	ACIQ-09PTC-B	ACIQ-12PTC-B	ACIQ-15PTC5-B	
BTU Capacity	7,000	9,000	12,000	15,000	
Compressor Type	Rotary				
EER	13.1	12.8	11.6	10.6	
Electrical Info	208-230V 1Ph 60Hz				
Electric Backup Heat	2.5kW	3.5kW	3.5kW	5kW	
Plug Type (LCDI)	6-15P	6-20P	6-20P	6-20P	
Refrigerant	R32				
Dimensions (WxDxH)	42.01" x 20.94" x 15.98"				
WiFi Included	Yes				
Warranty	7-year compressor - 1-year parts with online registration				

Inverter PTACs

The ACiQ Inverter PTAC redefines comfort and efficiency with advanced inverter technology, delivering high performance and precise temperature control. Ideal for hospitality settings, its sleek, compact design ensures seamless integration, while quieter operation and energy savings enhance guest satisfaction. Built for reliability and long-lasting use, the ACiQ Inverter PTAC is the perfect solution for modern heating and cooling needs.
