

Series Inline Filter Box

Three Stage Filtration: Pre Filter + Activated Carbon + HEPA (H12)

Product Overview

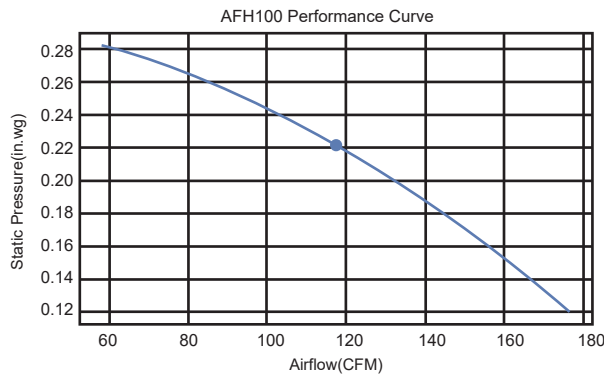

AFH Series Filter Box is designed for ventilation air purification systems. It combines three filtration stages to remove dust, odor and fine particles before air enters indoor spaces.

Technical Data

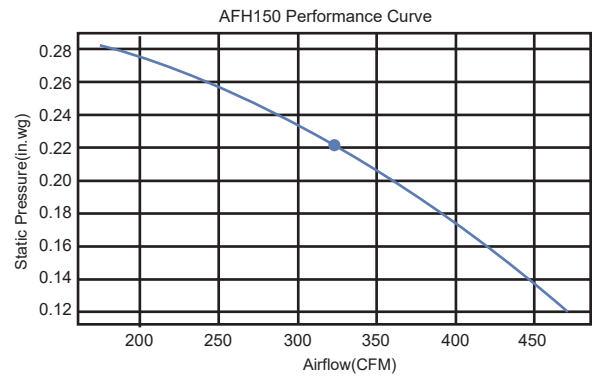

Model	Airflow (m3/h)	Airflow (CFM)	Initial Resistance (Pa)	Filters
AFH100	100-300	60-180	30-70	G4 + Carbon + H12
AFH150	300-800	180-470	30-70	G4 + Carbon + H12
AFH200	800-1500	470-880	100-120	G4 + Carbon + H12
AFH250	1500-2500	880-1470	150-180	G4 + Carbon + H12
