Deliver Endless Hot Water to Your Customers

The MRCOOL® 199,000 BTU Tankless Water Heater provides reliable, on-demand hot water while helping homeowners reduce energy consumption and free up valuable space.

Why Tankless?

- Endless hot water on demand
- No bulky storage tank
- Higher energy efficiency
- Lower standby energy losses
- Space-saving wall-mounted design
- Longer service life

Key Features

- Up to 199,000 BTU heating capacity
- Advanced heat exchanger technology
- Ultra-Low NOx technology
- Compact wall-mounted design
- Digital temperature controls
- Built-in safety monitoring systems

Ideal Applications

New construction, replacement projects, remodels, renovations, and whole-home hot water systems.

Benefits for Dealers

Easy to sell, strong upgrade opportunity, growing category, and backed by the trusted MRCOOL brand.
