

EUH SERIES

ELECTRIC RESISTIVE, LOW-STATIC AXIAL FAN, COMMERCIAL/INDUSTRIAL UNIT HEATER

Reznor® introduced its first heating product in 1888 when gas use was first being developed and Reznor continues to innovate as industry and customer needs change. The latest innovation is the EUH series of electric unit heaters that supports sustainability and greenhouse gas reduction when paired with zero emission, naturally generated electricity. The EUH series exemplifies the Reznor tradition of developing cutting edge, high-performing heating products to support the changing needs of our customers.

PRODUCT OVERVIEW

- Models (nominal kW): 3, 5, 7, 10. 15, 20, 25, 30
- Capacity Range: 2.3 to 30 kW (8 to 102 MBH)
- Airflow Range: 125 to 1663 CFM
- Available Voltages: 208V/1 phase, 208V/3 phase, 240V/1 phase, 240V/3 phase, 480V/3 phase
- Heating Elements: Stainless steel sheathed and finned
- ETL certified to UL Standard 2021, Fixed and Location-Dedicated Electric Room Heaters

FEATURES & BENEFITS

EASY TO STOCK, INSTALL, AND SERVICE

- Multi-voltage/phase capable models reduce inventory and simplify product selection
- Fast, easy access hinged service door with 1/4 turn latch
- · External terminal strip for quick 24V wiring
- · Simple fan on control without added relays
- Multiple mounting options for wall or ceiling mounting including low clearance
- Readily available repair parts since common parts with Reznor gas-fired unit heaters

EASY TO CONTROL

- 24V control circuit
- 2-stage heating on larger units improves space temperature control
- Multiple options to control from simple on/off to multi-stage thermostats
- Entire space control with the multi-unit control option
- BMS capable

DURABLE, SLEEK, MODERN APPEARANCE

- Two-tone black and white color scheme with scratch-resistant glossy coating
- Clean rounded corners and edges with no visible screws or fasteners
- Suitable for Commercial Installations

Reznor® EUH Series unit heaters are ideal for a wide variety of space heating applications. They are suitably attractive for commercial applications and robustly designed for industrial use.

COMMON USES

Entry Ways Shops Freeze Protection

Stairwells Security Houses Residential Sheds, Garages,

Hallways Factories or Workshops
