

Bedford Char Log Diagram

BCS1814RG 18" Set

(Step 1)

Place the FR018GO on the grate. Pull it forward until the front edge touches the front logs. This will create the heat chamber needed to help the logs glow and radiate heat.

Place the F9209GO on the grate. Use is as a base to stack some of the FCC-5 char pieces, put the remaining pieces in the ember bed.

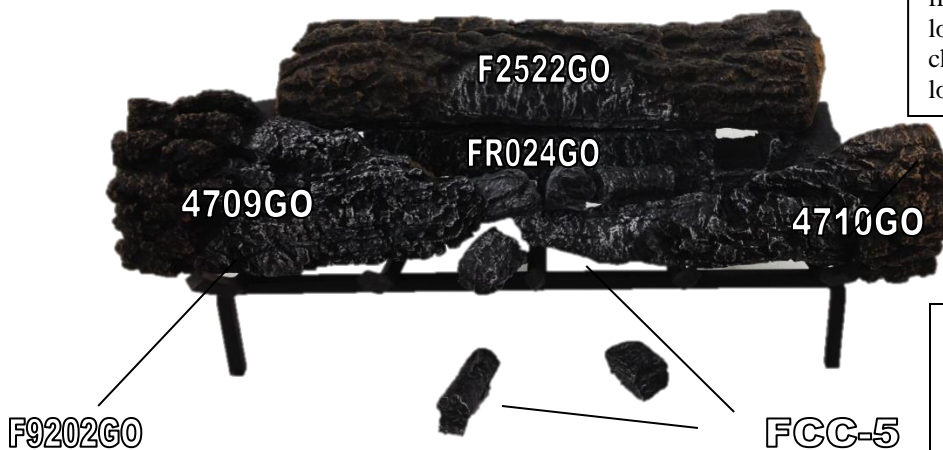

(Step 2)

Place the rest of the top logs as shown.

BCS2415RG 24" Set

(Step 1)

Place the FR024GO on the grate. Pull it forward until the front edge touches the front logs. This will create the heat chamber needed to help the logs glow and radiate heat.

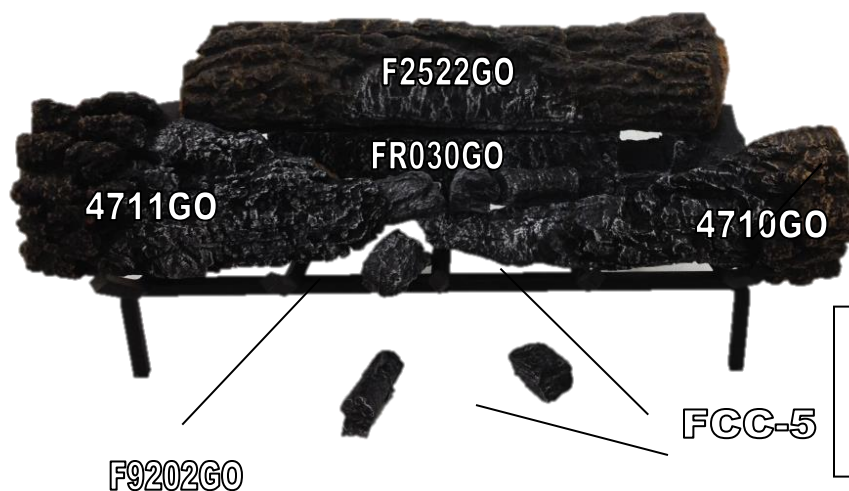

Place the F9209GO on the grate. Use is as a base to stack some of the FCC-5 char pieces, put the remaining pieces in the ember bed.

Place the rest of the top logs as shown.

(Step 2)

BCS3016RG 30" Set

Place the FR030GO on the grate. Pull it forward until the front edge touches the front logs. This will create the heat chamber needed to help the logs glow and radiate heat.

Place the F9209GO on the grate. Use is as a base to stack some of the FCC-5 char pieces, put the remaining pieces in the ember bed.

(Step 1)

Place the rest of the top logs as shown.

(Step 2)
